

ADDENDUM NO. 1

RFP #OBTDB-2026-2

Sidewalk Repair & Replacement Services (2026–2028)

Date Issued: August 28, 2026

This Addendum provides OBTDB's response to the bidder question received during the solicitation question period. This Addendum is incorporated into and becomes part of the RFP documents.

QUESTION 1

For pricing purposes, please confirm whether the estimated 20,000 square feet represents the anticipated contract quantity or is being used only for bid evaluation.

Please also provide the anticipated average quantity per work order and clarify whether multiple repair locations will generally be grouped together or issued as individual, small repairs. This information is necessary because the work-order quantity directly affects mobilization, MOT, demolition, disposal, and cleanup costs.

OBTDB RESPONSE

The estimated **20,000 square feet is provided for bid evaluation and pricing purposes only** and should not be interpreted as a guaranteed contract quantity.

As stated in the RFP, OBTDB does not guarantee a minimum quantity of work during the contract term. Actual quantities will be determined based on identified needs, available funding, and Work Orders issued by OBTDB.

OBTDB cannot provide a guaranteed average quantity per Work Order. Work Orders may vary in size and may include one or multiple repair locations. When practical and operationally appropriate, OBTDB may group multiple repair locations within a Work Order; however, OBTDB reserves the right to issue individual or smaller Work Orders as needs arise.

Bidders should account for mobilization, Maintenance of Traffic (MOT), demolition, disposal, cleanup, and other incidental costs when developing their unit pricing in accordance with the requirements of the RFP.

All other terms, conditions, specifications, and requirements of RFP #OBTDB-2026-2 remain unchanged.

Proposers shall acknowledge receipt of this Addendum in accordance with the requirements of the RFP.
